**INTERNATIONAL CONFERENCE ON
ADVANCES IN ENGLISH LANGUAGE STUDIES (ICAELS-2022)**
14th -15th October, 2022

CONCEPT NOTE

Language has played a vital role in human growth from ages being the medium of communication between people of various communities residing in different geographical zones of the world. And no doubt, English language has always reigned and proven itself the most significant, common and wide-reaching language on the globe. As a result of its significance, human growth has been multi-dimensionally boosted up and can be observed in various sectors. Therefore researchers and academicians have also been inclined more and more with passing time to do further apt studies in the area of English Language to broaden up their knowledge.

For this reason, authentic layouts are being followed and discussed how and what kind of research has been done over past decades looking at altered roles that are given to English such as for employability, in international mobility, as a key for unlocking development opportunities and widely used language. Hereafter, more research is required before we completely recognize both the importance of English in human development and the advances already done in the area.

Anticipating the inclination of researchers in academia far and wide to research and know more about vistas and advances of the language and its role in societal upliftment, this Conference aims to bring together and provide a platform to all such interested scholars to share their opinions, viewpoints and researches for their elevation and enhancement of their existing knowledge.

Submissions may include, but are not limited to, an exploration of the following subthemes: sociolinguistics, multiculturalism, multilingualism, constructivism, communication studies, linguistic ethnography, intertextuality, narratology, deconstruction, post-structuralism, semantics, pragmatics, semiotics, speech acts, translation theory, machine translation, language learning theories, classroom language(s), language teaching methodology, teaching strategies and styles, teacher identities, innovative approaches, discourse analysis, conversation analysis, language acquisition, language and literature studies, language and communication, language and culture, language and psychology, language and technology, language learning and teaching.

NOTE: The above subthemes are indicative and not exhaustive. Scholars can formulate a more comprehensive and relevant theme within the framework of English Language and Literature.
